

FLEET

Sanitation units with recirculation and integrated washbasin. Ideal for any kind of large-scale event: concerts, popular festivals, competitions, opening events, open-air weddings, etc. Its roomy interior space, up to 24.45% more than the other products on the market, and the integration of washbasin, soap unit and paper dispenser in its design, give the user the greatest convenience at all times.

Advantages for the user:

- Exclusive ventilation system.
- Roomy interior for easier use.
- Anti-splash system in the WC.
- Brighter through translucent roof.
- Includes washbasin, roll-holder, soap dispenser, paper towels and mirror in the automatically locking door.

Technical characteristics:

- WC tank recirculation system with foot pump.
- Possibility of double recirculation system, cleaning the WC with clean water from the washbasin just by turning a tap.
- Washbasin with separate foot pump.
- Very stable to prevent tipping over.
- Models with connection to the sewers.
- Rounded design easy to transport.
- Front door and dispensers with key.
- Aluminium anti-impact frame.
