

## FOAM HANDS REPLACEMENT PACK

Hygiene foam

Replacement packs of hygiene foam last twice that of conventional soap. Other advantages over conventional soap dispenser replacement bags are:

- More economical: it dispenses 0.75 ml. of foam as compared with the traditional 1.5 ml. of soap.
- The foam is spread out better, killing 99% of germs.
- It is dispensed by means of a button at the top of the dispenser (with no risk of wasting the product by dripping out).
- The operating lever complies with ADA (American with Disabilities Act) by requiring a single hand and a pressure under 2.27 kilograms for dispensing the product.
- A large window means the level of soap in the dispenser can be checked at a glance.
- The cream leaves your hands as soft and fresh as if you had been given royalty treatment!

### Usage

Just press the button to get the amount of product required for complete hand cleansing.

**CAUTION: KEEP OUT OF CHILDREN'S REACH.**

Avoid contact with the skin and eyes. If this occurs, immediately wash out with plenty of cold water. If the irritation goes on, get medical treatment. Harmful through ingestion. Avoid contaminating foodstuffs.
